TAKING ACTION TO SOLVE PROBLEMS

Creating a Circular Economy for the Interior Design and Fitout Industry

CREATING A CIRCULAR ECONOMY FOR THE INTERIOR DESIGN & FITOUT INDUSTRY

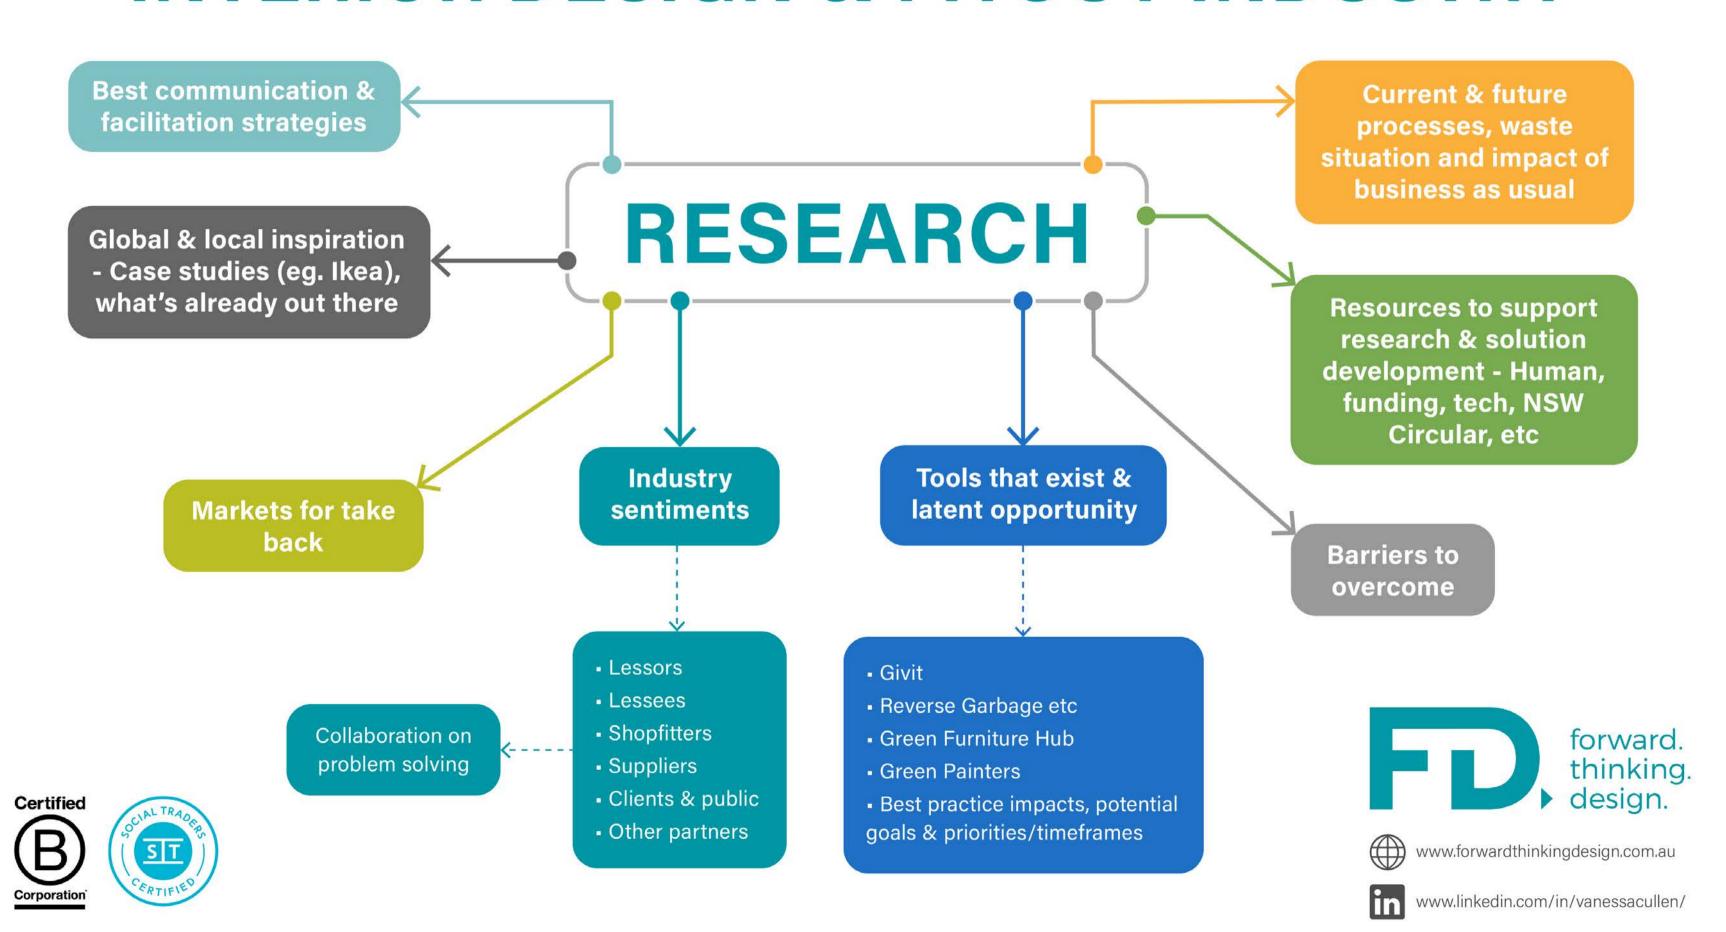

CREATING A CIRCULAR ECONOMY FOR THE INTERIOR DESIGN & FITOUT INDUSTRY

CREATING A CIRCULAR ECONOMY FOR THE INTERIOR DESIGN & FITOUT INDUSTRY

Benefits to clients, such as retailers, to take focus off purely upfront cost?

Impact - More sustainable businesses, reduced fitout costs?
Lessees able to fulfill longer leases & to open more stores. Lessor ecobenefits. PR & Marketing

Recycle into re-use or true recycling/reclaiming/new materials & products

Certified

B

Corporation:

Corporation:

Take back schemes by suppliers

Educate suppliers & shopfitters and set up systems & benefits

CLOSING THE LOOP

Reducing Waste in Shopfitting

Defit

- How to link items with the market?
 - > Digital & physical market places
- Storage, transport & timeframes
- Potential income or credits source for shopfitters? In re-sale/re-use diversion from landfill. PR benefits

Optimise operational
efficiency - Carbon
footprint, resource use,
lower operational
costs, less importing &
transport - Analysis &
reporting

Adaptive re-use of fitouts in situ or relocated by tenants or give to charity

Lessors & RDM's need to be supportive and supported

Reduce - Use less but maintain aesthetic & functional quality in design and in manufacture = education
